Peter Naghavi  
Manager of Transportation Services  
City of Costa Mesa  
P.O. Box 1200  
Costa Mesa, CA 92628-1200

Dear Mr. Naghavi:

**SUBJECT: CTFP CALL FOR PROJECTS – Costa Mesa/Huntington Beach Signal  
Coordination Project**

This is to express our support of your effort to compete for Signal Improvement Program (SIP) funds to complete a traffic signal coordination project of Adams Avenue and Victoria Street/Hamilton Avenue. These corridors are shared by the cities of Costa Mesa and Huntington Beach and serve a very large number of daily commuters.

The corridors include eight existing signal controlled intersections and one future signal in the city of Huntington Beach. The city of Huntington Beach is prepared to fund the requested participation for the project of \$9,000 for FY 04/05 through one of our non-General Fund programs, such as the Air Quality Management District funds.

The city of Huntington Beach appreciates your efforts in developing this project and wishes you well in your efforts to improve those corridors, as they will benefit Huntington Beach and Costa Mesa residents.

Sincerely,

Robert F. Beardsley  
Director of Public Works
