RE: MEDIAN ISLANDS ADJACENT TO «ADDRESSPRP» IN THE CITY OF COSTA MESA

Dear Sir or Madam:

The City of Costa Mesa has retained KFM Engineering, a civil engineering consulting firm located in Foothill Ranch, CA, to prepare a "preliminary" design for the installation of landscaped median islands at various locations along Placentia Avenue between Production Avenue and Congress Avenue. Preliminary median locations have been determined and we have identified potential impacts to vehicular left turn in and left turn out movements to and from your driveway.

To ensure your concerns on the proposed median island locations are addressed the City of Costa Mesa has instructed KFM Engineering to meet with you, review the median island locations and obtain your feedback on the project.

Please contact, at your earliest convenience, Mr. Edward Miller of KFM Engineering at (949) 580-3838 to arrange for a time and location for this important meeting. Thank you for your time and effort in this matter and we look forward to obtaining your opinion on this project.

Sincerely,
City of Costa Mesa

Fariba Fazeli, P.E.
Project Manager
