The work performed by Republic ITS consisted of the installation of a City-furnished illuminated crosswalk system on Gisler Avenue between California Street and Iowa Street. The scope of work also included installation of two City-furnished mast-arm poles with flashers, flashing beacons, conduit and conductors, crosswalk controller system, and electrical service cabinet assembly.

The scope of work performed by M.J. Jurado Equipment Rental, Inc. included construction of hardscape and landscape improvements including median islands, curb & gutter, sidewalk, handicap ramps, interlocking pavers and decorative concrete crosswalk.
