Charter is a joke just like the council majority. Dictator Righeimer needs to go!

I don't support wasting more money on putting this charter on the ballot. It doesn't really give us local control and we lose rights and remedies we would have under general law. You can't void contracts just because Costa Mesa becomes a charter city. There are no benefits or gains.

 I believe very strongly in local control. The charter is limited by the State Constitution but, nonetheless, it provides local control over local projects. It allows the city managers to shop for the best construction deal and pay market wages. The managers will have to "manage" to make this a successful but that's why they manage!

 I very much in support of Costa Mesa becoming a charter city. I thank those of you who are fighting hard for this goal and not bending to the will of employee unions. Diane Scioli

 I can't figure out why anyone is working on a charter. We voted against it...and we will again.
