

Tony Capitelli

Occupation: Constituent Advocate

My wife and I are Costa Mesa homeowners, and chose to live here because we fell in love with its character. While working to end homelessness in Costa Mesa as a member of the Street Team, I've seen residents, churches, and business owners work together to begin to solve one of our biggest issues. This is the approach I will bring to the Costa Mesa City Council.

Central to my life are faith, family, and community. My and wife are members at Christ Lutheran Church Costa Mesa where I serve on the Christ Lutheran School Board of Education.

Professionally, I have a public policy background working for the U.S. House of Representatives where I work daily to champion the interests of citizens and businesses directly impacted by government policies at all levels. I also graduated with a Juris Doctorate from Whittier Law School here in Costa Mesa.

Should I be elected to the City Council I will work toward solutions to address homelessness, to promote a small business friendly environment, and to improve public safety.

You can find my positive vision at TonyCapitelli.com. I believe that together we can enhance the character of this city with a spirit of collaboration.
