ACRONYMS

ADT	Average Daily Traffic: The measure of the average volume of traffic in both directions on a particular street during a 24-hour period.
ALUC	Airport Land Use Commission: The County commission which coordinates compatible zoning and land uses adjacent to John Wayne airport.
AQMD	Air Quality Management District: A regional agency which has the responsibility of monitoring air quality and the authority to adopt and enforce all rules and regulations necessary to control nonvehicular sources of air contaminants.
CEQA*	California Environmental Quality Act: This act requires all state and local agencies to consider the environmental impact of any discretionary project proposed.
CNEL	Community Noise Equivalent Level: An acoustical scale used as a measure of noise annoyance. In Costa Mesa, the maximum outdoor residential standard is 65 CNEL, and 45 CNEL is the indoor residential standard.
CUP	Conditional Use Permit: The Planning Commission may grant a conditional use permit to a landowner allowing a use or activity not allowed as a matter of right within a zoning district.
dBA	Decibel, A-weighted: The loudness of sound is measured in units of noise called decibels (dB). When this measure is modified by what is called an "A-weighting," abbreviated dBA, it corresponds more closely to what the human ear can hear.
DR	Development Review: The Planning Division reviews plans for certain types of development in multiple-family residential, industrial, and commercial zones. Approval under this process must be granted before building permits may be issued.
EIR	Environmental Impact Report: An informational document required by CEQA, which provides a detailed statement of the environmental effects of a proposed project. Its purpose is to provide information to the decision-makers and the general public so that a project's significant effects on the environment can be evaluated; the methods of reducing adverse impacts identified; and the alternatives to proposed project considered.
FAR	Floor Area Ratio: The gross floor area of a building or project divided by the project lot area upon which it is located.
LAFCO*	Local Agency Formation Commission: A board established within each county with the power and duty to approve or disapprove the annexation of territory to cities. LAFCO determines the "sphere of influence" (a plan for the ultimate physical boundaries and services area) of each city within a county.
NOP	Notice of Preparation: A brief notice sent by the City stating it plans to prepare an Environmental Impact Report (EIR) for a proposed project.
OCFCD	Orange County Flood Control District: The agency responsible for studies, plans, and construction-related activities for flood control channels.
OCTA	Orange County Transportation Authority: The agency responsible for public transportation in Orange County. It is also responsible for county-wide transportation planning, funding, and construction of major regional projects.
PA	Planning Application: In order to give flexibility to the City's comprehensive zoning regulations, some exceptions are allowed by the Planning Commission. These exceptions are classified as variances or conditional use permits. On approving such an exception, the Commission may impose reasonable conditions to the use of the property. In Costa Mesa, planning application is identified by an application number such as PA-99-01. The "PA" identifies the application as a Planning Application, the "99" identifies the year in which the application was filed, and "01" indicates that this was the first application in 1999.
SCAG*	Southern California Association of Governments: A regional intergovernmental organization composed or representatives from eligible cities and the six eligible counties (Orange, Los Angeles, San Bernardino, Ventura, Imperial, and Riverside).
SCAQMD	Southern California Air Quality Management District (see "AQMD")
SRO	Single Room Occupancy Development: These efficiency room residential hotels are rented primarily on a monthly basis, for the purpose of providing individuals and small households of low income, low cost housing that is easily accessible to services and employment opportunities.
TAZ*	Traffic Analysis Zone: The City of Costa Mesa is divided into 176 traffic analysis zones, or TAZ's, which form the level of analysis for recording land use and demographic data. The land use information is then used for traffic forecasting and analysis.
TE	(Vehicle) Trip Ends: A one-way vehicular journey to or from a site, or totally within the site, i.e., internal trip. Each trip has 2 trip ends, one at the beginning and the other at the destination.
UBC	Uniform Building Code: This code contains the national standards and regulations pertaining to fire, life, and structural safety aspects of all buildings and related structures. All building permits must comply with these requirements.
VARIANCE	Variance: A permit granted by the Planning Commission when the strict application of a zoning standard creates a unique hardship for a landowner because his or her parcel is different from other property in the vicinity under an identical zoning classification due to size, shape, topography, location, or surroundings.
ZA	Zoning Administrator: This person performs reviews of specific discretionary projects that are not subject to Planning Commission review. The Development Services Director or his designee is authorized to act as the Zoning Administrator.
