

Fairview Park Master Plan Sections on Restoration

Page 4	Section 1.2	Paragraph 5, reduction of certain trails and paved surfaces
Page 5-6	Section 1.3	Paragraph 2 & 3
	Section 1.3	Paragraph 7
Page 6	Section 2.1	West of Placentia
Page 9	Section 2.4	Paragraph 3
Page 10	Section 3.1	Paragraph 1
Page 12	Section 3.4.1	Paragraph 4
Page 13	Section 3.5	Paragraph 3
Page 15	Section 3.5.1	Giant Reed, removal of invasive plants
	Section 3.5.1	Habitat Restoration Sites
Page 17	Section 3.5.1	Vernal Pools, Paragraph 2, restoration of largest pool (1)
Page 19	Section 3.5.2	Areas of High Biological Sensitivity, Vernal Pool and Associated Grasslands
	Section 3.5.2	Areas of Moderate Biological Sensitivity, potential for restoration
	Section 3.5.2	Areas of Low Biological Sensitivity, placement of artificial fill and weed control
	Section 3.5.2	Biological Opportunities
Page 20	Section 3.5.2	Alluvial Scrub/Giant Reed, Paragraph 2, past action
	Section 3.5.2	Coastal Bluff Scrub-Disturbed
	Section 3.5.2	Vernal Pools and Associated Grasslands, past action
Page 21	Section 3.5.3	Interim Park Management, proposed action
Page 22	Section 4.1	3. Steep Slopes, used for habitat restoration and prevent erosion
	Section 4.1	7. Existing Fill Soils, past action
Page 23	Section 4.1	9. Vernal Pools, past action
	Section 4.2	1. Remnant Native Plant Species
Page 24	Section 4.2	4. Link with Adjoining Habit Restoration, connection between Talbert and Fairview
Page 25-6	Section 5	Design Objectives, Paragraph 2
Page 26	Section 5.1	Paragraph 3, access of park co-existing with habitat restoration
Page 27-8	Section 5.2	Restoration Objectives
Page 28	Section 6	The Master Plan, Paragraph 2

Fairview Park Master Plan Sections on Restoration

Page 33	Section 6.3	Vernal Pools, future proposal
Page 35	Section 6.3	Coastal Bluff Scrub Restoration on the Bluffs and Central Canyon
	Section 6.3	California Native Grassland Restoration on the Mesa
Page 38-9	Section 6.6	West of Placentia-Habitat Restoration, Paragraph 1 & 5
Page 39	Section 6.6	Conceptual Restoration Plan Plant Palettes—Fairview Park, Costa Mesa
	Section 6.6	California Native Grasslands, removal of fill from mesa
Page 41	Section 6.6	Alluvial Scrub, mentioning removal of Giant Reed
	Section 6.6	Riparian Scrub, mentioning of alluvial scrub restoration
Page 42	Section 6.7	Existing Fill Soil Removal
Page 43-4	Section 6.8.2	Erosion Control Measures and Suggested Recommendations, implementation of geoweb and check structures for erosion
Page 44	Section 6.8.3	Proposed or Modified Drainage Patterns
Page 45	Section 6.8.3	Development of Riparian Scrub in the Existing Placentia Drain, paragraph 1, restoration of flow line
Page 48	Section 7.1	The Process for Incorporating parts of Fairview Park into the NCCP
Page 49	Section 7.1	Permitted Uses within the NCCP Reserve, under Adaptive Management Activities
Page 50-1	Section 7.1	Potential Advantages of Inclusion in the NCCP
Page 51	Section 7.1	Potential Disadvantages of Inclusion in the NCCP
	Section 7.1	Recommendation for Inclusion of a Portion of Fairview Park in the NCCP, recommendation of areas to restore
Page 52-3	Section 7.2	Trail Delineation, width of trails passing through restored habitat and monitoring of restored area
Page 53	Section 7.2	Lighting, no lighting near restoration areas
Page 57	Section 7.3	Phasing Construction. Paragraph 1 & 2
Page 57-8	Section 7.3	1. Infrastructure, Removal of fill soils
Page 58	Section 7.3	2. Area D Western Grassland and Bluffs
	Section 7.3	4. Area A and C Northwest Lowlands, sensitive habitat restoration
	Section 7.3	5. Area E Group Picnic Area, overlooking restored habitat in lowlands
Page 70	Appendix B	Paragraph 3, mention of past planting of natural vegetation
Page 71	Appendix B	Changes to Part 1, guidelines for potential restoration of all sites with fill

Fairview Park Master Plan Sections on Restoration

Page 71-2	Appendix B	Changes to Part 2, monitoring of potential restoration by a qualified archaeologist
Page 76	Appendix C	Introduction, Paragraph 2
	Appendix C	Setting, Methods, Paragraph 1, logical and biologically valuable regions for restoration
Page 77	Appendix C	Past/Ongoing Land Uses, shows obstacles within park and how the habitat can overcome
Page 80	Appendix C	Plant Communities, Habitat Restoration Sites
Page 99	Appendix C	Biological Constraints and Opportunities
Page 100	Appendix C	Areas of Moderate Biological Sensitivity, Paragraph 1
	Appendix C	Areas of Moderate Biological Sensitivity, Habitat Restoration Sites
Page 102-4	Appendix C	Restoration Opportunities, restoration within Coastal Bluff Scrub/Vernal Pools & Associated Grasslands/Alluvial Scrub/Giant Reed
Page 104-5	Appendix C	Interim Park Management, city should implement restoration practices
Page 105	Appendix C	Future Park Planning, Paragraph 2 (Bullet Point 3)
Page 118	Vernal Pools	Environmental Sensitivity of and Description of Vernal Pools and Associated Resources, Paragraph 3 & 4
Page 120	Vernal Pools	Removal of Stockpiled Soil from Vernal Pool 1
	Vernal Pools	Inoculum Collection
Page 120-1	Vernal Pools	Monitoring, to be followed after restoration
Page 121	Vernal Pools	Maintenance, after restoration
	Vernal Pools	Protection, after restoration
Page 123	Appendix E	Paragraph 1, City's willingness to enhance Fairview
Page 125	Appendix E	Purple Sage Scrub (2.3.3-revegetated), past usage of hydroseeding
	Appendix E	Mixed Scrub (2.3.10-revegetated), past clearing of exotic plants and planting of native plants
Page 128	Appendix E	Vernal Pools 1, 2, and 3, past restoration
Page 168	Appendix B	US Fish and Wildlife Service 45-Day Survey Report, Additional comments, restore to native habitat for California Gnatcatcher
Page 171	Appendix C	California Native Species Field Survey Summary Form, Comments, restore to native habitat for California Gnatcatcher
