Art Steps

Drawing & Painting classes

Art Steps is an individualized, year-round program for students ages 4 & up, providing step-by-step guidance, working toward each student's interests, so that each class is lively and engaging. Kind, caring teachers work one-on-one, hands-on with each student; building one skill upon another, from simple to complex. A variety of media are taught, from crayons through colored pencils, pastels, watercolor, acrylics and more, until that student becomes a highly-skilled oil painter, and can use these skills as a foundation to go in any artistic direction he or she chooses.
