### Stephen Rotella

Digital & Fine Art

**Stephen Rotella** earned his bachelor degree in art from CSU Channel Islands in 2012 and continues to enjoy studying as well as teaching art in addition to creating it. He draws inspiration from his travels abroad and from his time in Central California where he learned from a fellow artist how to keep his work honest and meaningful. “Get a life worth living, and then paint your autobiography”—invaluable advice that Rotella keeps in mind throughout the entire creative process of each new work of art.

Rotella’s work has appeared in exhibitions at places such as the Ventura Harbor Village Gallery and Paris American Academy in France and is part of private collections along the West Coast. He currently lives in Orange County, California.
