Sean Woolsey Studio

Furniture Design & Craftsman

Sean Woolsey Studio's focus is handmade furniture, incorporating natural materials and letting their natural beauty show. Their pieces are purposely designed to last generations, in contrast to a "throw-away" mass-market approach. The core of what they do is informed by the beauty, structure, and simplicity in nature.

The team at Sean Woolsey Studio is a tightly knit group of a talented craftsman. They also work with highly skilled upholsterers, woodworkers, and welders all within 50 miles of thier studio in sunny Costa Mesa, CA. They keep the group of collaborators and team members small and local to assure synergy and that product standards remain high.
