I just got off the phone with the President. He told me that his administration will not be sending any victims of the Coronavirus from the Diamond Princess cruise ship to Anniston, Alabama. Thank you, @POTUS, for working with us to ensure the safety of all Alabamians.

.@realDonaldTrump called to assure me that this plan will not move forward. I thanked him for his support of AL! We always want to help our fellow Americans, but this wasn't fully vetted. Thank you @SenShelby @RepMikeRogersAL for advocating on our behalf! #alpolitics #teamwork twitter.com/senshelby/stat...

...n for his support of AL! We always want to help our fellow Americans, but this wasn't fully vetted. Thank you Senator Shelby and Rep. Mike Rogers for advocating on our behalf!"

Congressman Mike Rogers (R-Anniston) also tweeted expressing the same message.

"When President Trump called me this afternoon with the great news that he cancelled the plan by HHS, I wholeheartedly thanked him on behalf of people of Alabama. Let's all say THANK YOU to President Trump for his tremendous leadership!" Rogers said.

In an interview by phone, Rep. Rogers said, Anniston "is no way equipped to deal with infectious disease control. So I called President Trump on Air Force One headed to India and informed him. He had no idea about this. He was, as you might imagine, upset. He told me to assure everyone he was going to stop it."

"I've never seen something like this being initiated by the federal government where you didn't at minimum notify the congressional delegation and much less the local elected officials and the governor. The governor wasn't notified to ask what she thought about it. She was just told, 'We're doing it,' Rogers said.

Rogers added that the president told him there may be officials fired as a result of how this was handled.
