Legal Requirements for Development Impact Fee Reporting

Legal Requirements for Development Impact Fee Reporting

California Government Code Section 66006 (b)

California Government Code Section 66006 (b) defines the specific reporting requirements for local agencies that impose AB 1600 DIFs on new development. Annually, for each separate fund established for the collection and expenditure of DIFs, the local agency shall, within 180 days of the close of the fiscal year, make available to the public the information shown below for the most recent fiscal year.

- a) A brief description of the type of fee in the account or fund.
- b) The amount of the fee.
- c) The beginning and ending balance of the account or fund.
- d) The amount of the fees collected and interest earned.
- e) An identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- f) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement, as identified in paragraph (2) of subdivision (a) of Section 66001, and the public improvement remains incomplete.
- g) A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an inter-fund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.
- h) The amount of refunds made pursuant to subdivision (e) of Section 66001 and any allocations pursuant to subdivision (f) of Section 66001.

California Government Code Section 66001

For all funds established for the collection and expenditure of DIFs, California Government Code Section 66001 (d) has additional requirements. For the fifth fiscal year following the first deposit into the fund and every five years thereafter, the local agency shall make all of the following findings with respect to that portion of the fund remaining unexpended, whether committed or uncommitted:

- a) Identify the purpose to which the fee is to be put.
- b) Demonstrate a reasonable relationship between the fee and purpose for which it is charged.
- c) Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements identified in paragraph (2) of subdivision (a).
- d) Designate the approximate dates on which the funding referred to in subparagraph (c) is expected to be deposited into the appropriate account or fund.

California Government Code Section 66002

The State of California Government Code Section 66002 states that:

- a) Any local agency, which levies a fee subject to Section 66001, may adopt a capital improvement plan, which shall indicate the approximate location, size, time of availability, and estimates of cost for all facilities or improvements to be financed with the fees.
- b) The capital improvement plan shall be adopted by, and shall be annually updated by, a resolution of the governing body of the local agency adopted at a noticed public hearing. Notice of the hearing shall be given pursuant to Section 65090. In addition, mailed notice shall be given to any city or county, which may be significantly affected by the capital improvement plan. This notice shall be given no later than the date the local agency notices the public hearing pursuant to Section 65090. The information in the notice shall be not less than the information contained in the notice of public hearing and shall be given by first-class mail or personal delivery.
- c) "Facility" or "improvement," as used in this section, means any of the following:
 1. Public buildings, including schools and related facilities; provided that school facilities shall not be included if Senate Bill 97 of the 1987-88 Regular Session is enacted and becomes effective on or before January 1, 1988.
 2. Facilities for the storage, treatment, and distribution of nonagricultural water.
 3. Facilities for the collection, treatment, reclamation, and disposal of sewage.
 4. Facilities for the collection and disposal of storm waters and for flood control purposes.
 5. Facilities for the generation of electricity and the distribution of gas and electricity.
 6. Transportation and transit facilities, including but not limited to streets and supporting improvements, roads, overpasses, bridges, harbors, ports, airports, and related facilities.
 7. Parks and recreation facilities.
 8. Any other capital project identified in the capital facilities plan adopted.

Description of Development Impact Fees with Corresponding Fee Schedule

Park Development Impact Fees (Quimby Act Fees)

Fee Description: This fee provides funding for additional or improved park and/or recreation facility improvements for which the need is generated by new development within the City.

Fee Schedule: The table below indicates the applicable park development fee per unit that will be applied to new residential projects based on the net increase in residential units.

Development	Fee per Unit
Single-family Dwelling Unit	\$13,572.00
Multi-family Dwelling Unit	\$13,829.00
Apartment Dwelling Unit	\$5,000.00

Drainage Impact Fees

Fee Description: This fee provides funding for additional construction and maintenance of the City's drainage system for which the need is generated by new development or redevelopment within the City.

Fee Schedule: The table below indicates the applicable drainage impact fee per acre that will be applied to new or redeveloped projects.

Development Type	Fee per Acre
Low Density Residential Use	\$6,283.00
Medium Density Residential Use	\$7,539.00
High Density Residential Use	\$10,052.00
Commercial / Industrial Density Residential Use	\$11,309.00

Traffic Impact Fees

Fee Description: This fee provides funding for additional or improved traffic signal, operation, and infrastructure improvements for which the need is generated by new or expanding development within the City.

Fee Schedule: The citywide Traffic Impact Fee is assessed on the increased number of average daily trips generated by the proposed project. The City Council adopted a fee of \$235 per daily trip on November 13, 2018. On November 17, 2020, the City Council voted to continue the Traffic Impact fees at \$235 per daily trip. Additionally, Council voted to continue

with the Traffic Impact fees at \$235 per daily in 2021 through 2023. On November 19, 2024, the City Council voted to decrease the Traffic Impact fees to \$228 per daily trip.

Fire System Development Fees

Fee Description: This fee provides funding for additional fire protection facilities, equipment, and paramedic support for which the need is generated by future development within the North Costa Mesa area. This fee is only levied against five identified developments: Home Ranch, South Coast Plaza Town Center, South Coast Metro Center, and Sakioka Farms' Lots 1 and 2.

Fee Schedule: The fee is \$0.29 per square foot of new commercial, industrial or residential development.

Cannabis Traffic Impact Fees

Fee Description: This fee provides funding for additional or improved traffic signal, operation, and infrastructure improvements within the City for which the need is generated by the cannabis retail establishments.

Fee Schedule: The citywide Cannabis Traffic Impact Fee is assessed on the increased number of average daily trips generated by the proposed project. The City Council adopted a fee of \$235 per daily trip on November 13, 2018. On November 17, 2020, the City Council voted to continue the Traffic Impact fees at \$235 per daily trip which is the same for the Cannabis Traffic Impact Fee. Additionally, Council voted to continue with the Traffic Impact fees at \$235 per daily in 2021 through 2023. On November 19, 2024, the City Council voted to decrease the Traffic Impact fees to \$228 per daily trip.

Funding of Infrastructure

The FY 2025-26 – FY 2029-30 CIP identifies all funding sources and amounts for individual projects through FY 2029-30. The CIP is updated annually to reflect the current City's infrastructure needs. As a CIP is identified, the project is evaluated to determine the portion of the project that will service existing residents and businesses versus new development.

Once the determination of use is made, the percentage of use attributed to new development is then funded by the appropriate development fee based on the type of project. The percentage of use associated with existing residents or businesses are funded from other appropriate sources. Estimated construction start dates for projects are adjusted, as needed, to reflect the needs of the community.
